Super Erecta Shelf® LAB ANIMAL RESEARCH (LAR) CARTS

LAR Feed Carts are designed to store and transport animal feed. Stainless steel finish provides superior corrosion resistance, while compact footprint makes it easy to maneuver in and around tight lab spaces. Clear totes provide easy identification of tote contents.

Lab Security Cart provides secure storage for animal cage, lab instrument, or hazardous chemical transport. Solid stainless steel shelf with raised ship's edge can be used as a work surface and can contain unwanted spills.

- **Super Erecta Shelf® Construction** makes units easy to assemble with absolute rigidity, and makes relocation of shelves quick and simple.
- **Wire Shelves:** Bright, modern, sanitary appearance. Open construction minimizes dust accumulation, maximizes visibility and air circulation.
- **Casters:** Light duty, 4" (102mm) resilient rubber casters are included with Catalog Number LAR1X. While 5" (127mm) polyurethane tread casters are included with Catalog Number LAR2X and SECMLAB.
- **Clear Totes:** Each cart comes with either one (LAR1) or two (LAR2) clear totes for clean and secure animal feed storage. A snap-on cover is included with each 12" (305mm) deep tote.
- **Cover Holder:** A convenient tote cover holder comes standard with each cart. Attaches easily to wire shelf and takes up minimal space.
- **Donut Bumpers** included with casters.
- **Height:** 38" (965mm) floor to handle with 4" (102mm) casters; 39" (990mm) floor to handle with 5" (127mm) casters.
- **Accessories:** A wide variety of Super Erecta-based accessories to choose from.
