METRO MOBILE PROOFING CABINETS

C175 FlavorView[™] Series

- Ensures Uniform Proofing: PM2X675 proofing module provides humidity and heat needed for yeast products (breads, rolls, donuts, etc.) to rise. Blower-forced air circulation, at front, back and sides, assures uniform temperature and humidity throughout the cabinet. Wide, shallow chimney equalizes air circulation and saves space.
- See Through Door: The see-through door has dual magnetic latches and a full-length handle which provides easy, one-handed openings by right- or left-handed operators, and is field reversible. A transport latch prevents the door from opening accidentally.
- Maintains Controlled Environment: The proofing module has separate controls for temperature and humidity, which provide flexibility in setting proofing conditions to suit the type of dough.
- Easily Accessible Controls: The control panel is recessed to protect controls and angled for easy viewing. All controls are on the outside, so they can be adjusted without opening the door and disturbing the atmosphere inside the cabinet.
- Easy to Clean: Slide racks, heat module, and chimney can be removed easily, without tools, for thorough cleaning. Model 4 racks come in two pairs to fit in pot sinks. The door can also be lifted off for easier access to interior.
- Conserves Energy: The door has a tough, clear polycarbonate window which permits viewing contents without opening the cabinet. Full gasket on door prevents heat and humidity loss through leakage.
- Digital Thermometer: Mounted in the unit with sensing bulb stationary inside the cabinet for more consistent readings during frequent cabinet opening.
- Accommodates Various Tray Sizes: Two slide options 3" (76mm) spacing and 1½" (38mm) spacing permit proofing cabinets to accommodate various tray sizes. (See specifications on back.) Model 4 and V racks, with 3" (76mm) spacing, also adjust laterally to take both 18" (457mm) and 20" (508mm) width trays and pans.
- **Drip Trough** and removable pan contain condensation, preventing wet floor conditions.
- Available In Full and ¾" height models to accommodate a variety of applications.
- · 2.6 Qt. Stainless Steel Water Pan.

METRO MOBILE PROOFING CABINETS

C175 FlavorView[™] Series

Specifications

- Material: .063" (1.8mm) high-strength, natural-finish aluminum, with brushed exterior surfaces. .188" (4.8mm) chassis.
- **Top & Bottom:** Brake-formed from flat sheet into box-shaped section.
- Sides & Back: Brake-formed from flat sheet stock, with smooth, unobstructed interior walls for complete air circulation.
- Door: Extruded aluminum frame with full-length clear window double hinged; extruded aluminum full-length handle; continuous gasket; dual magnetic latches with transport latch. Door is field reversible.
- Tray Slide Racks:

Model 4: Nickel-chrome plated wire; 3" (76mm) slide spacing.

Model 8: Custom-designed aluminum extrusions with 1" x 1½" x 1½" x 1½"

(25 x 38 x 3mm) angle uprights and 1½" x ½" x .063" (38 x 12 x 1.8mm) channel slides. All slide racks remove for thorough cleaning.

- Casters: Two B5DN on back 5"
 (127mm) double ball bearing swivel,
 ball bearing axle, nickel-plated, donut
 neoprene-tired, pre-lubricated, bolted
 through chassis. Two B5DNB on front
 — same as above, with wheel brake.
- Electrical: PM2X675 Proofing Module
 — 1350 watt, 120 VAC, 12 amp, 60
 cycle, separate adjustable temperature
 and humidity thermostats with separate
 indicator lights. Cabinet operating
 range is 80° 120° Fahrenheit under
 normal room temperature conditions.
 Water pan; continuous blower;
 perforated air duct at back; master
 switch and "Power On" light; 6-foot
 (1829mm), 3-wire lead cord with NEMA
 5-15P straight male plug. Entire unit
 may be removed without tools, UL, CUL
 and NSF listed.
