

SUPER ERECTA SHELF®
SECURITY MODULES

- **Versatile:** Since the Security Module is standard in size, it can be used in any portion of the shelving unit. If desired, more than one security module can be used at a time. And a security module encloses only one section of the shelving unit, leaving the rest open for conventional use.
- **Convenient:** The door of the Security Module slides under the upper shelf, so that it's completely out of the way. It can be used in this "open" position for all-day use, with sensitive items locked up, on the spot, for safe overnight storage.

Two Security Modules on Stationary Unit

DIMENSIONS:

Cat. No.	Description	Length		Width		Height		Approx. Pkd. Wt.	
		(in.)	(mm)	(in.)	(mm)	(in.)	(mm)	(lbs.)	(kg)

SUPER ERECTA SHELF® SECURITY MODULES

for Standard 24" Wide Super Erecta Shelf® Wire Units

- **Designed** to convert a standard 24"-wide unit into a combination of open and lockable shelving through the use of a kit.
- **Kit Includes:** Two end panels, one back panel and one door and slides. Fits between any two shelves spaced 20" apart on any Super Erecta Shelf® Wire Unit with 24"-wide shelves in 30", 48" and 60" lengths.
- **Versatile:** Security Modules enclose only one section of the shelving unit, leaving the rest open for conventional use. Depending upon your needs, more than one Security Module can be used on the same shelving unit.
- **Ready View of Contents:** As with Metro's Security Trucks and Stationary Security Units, the heavy-gauge, open-wire construction of the Security Module keeps its entire contents visible at all times, and makes inventory easy.
- **Convenient Door:** Has hasps for two padlocks and, when opened, slides under the upper shelf conveniently out of the way.
- **Durable Chrome-Plated Finish**

Note: Security Modules can be installed on 24" wide Super Erecta Shelf® wire shelves only.
