

Item # _____

Job _____

SUPER ERECTA SHELF® SUPER ADJUSTABLE SUPER WIDE™ SHELVING

- **Cost Effective:** Super Wide™ shelves eliminate the posts, hooks, and extra shelves required in conventional applications, meaning greater cost effectiveness.
- **High-Density Storage:** Super Wide™ shelves have a greater storage capacity for holding large quantities of supplies, especially large, bulky objects, providing maximum storage in minimum space.
- **Super Wide™ Shelves** are available in 30" (760mm) and 36" (910mm) widths, and in 36" (910mm), 48" (1220mm), 60" (1525mm), and 72" (1825mm) lengths.
- **Shelf Accessibility:** Shelves can be loaded/unloaded easily from all sides. The larger width eliminates intermediate posts needed when narrower shelves are combined.
- **Unique Design:** The open wire design of these heavy-gauge shelves minimizes dust accumulation and allows a free circulation of air, greater visibility of stored items and greater light penetration.
- **Versatile Construction:** Super Wide™ shelving can change as quickly as your needs change. By using various accessories, hundreds of shelving configurations become possible.
- **Easily Assembled:** Super Wide™ shelves allow for faster assembly time because fewer shelves and posts are needed. The corner Release System and SiteSelect Posts, combined with the original "bottom up" assembly process, creates a complete shelving system in minutes, without tools! SiteSelect Posts with the double-groove visual guide feature, have circular grooves at 1" (25mm) intervals and are numbered at 2" (50mm) intervals. Shelves simply seat into place using the Corner Release.
- **Easily Adjustable:** Unique Corner Release and SiteSelect Posts create a total system that offers "Tool-Free," fast adjustment at 1" (25mm) intervals along the entire height of the posts.
- **Shelf Ribs:** Run front to back, allowing you to slide items on and off shelves smoothly and quickly.
- **Adjustability:** Shelves can be adjusted at 1" (25mm) intervals along the entire height of the numbered post.
- **Durable:** Super Wide™ shelving is available in chrome, stainless, and Metroseal™ finishes.
- **Adjustable Feet:** Bolt levelers compensate for surface irregularities.

**96P	96PK2	96PS	96 5/8	2454	5 1/2	2.5

SiteSelect™ Posts are grooved at 1" (25mm) increments and numbered at 2" (50mm) increments. Posts are double-grooved every 8" (203mm) for easy identification.

* Height includes leveling bolt and cap.
 ** 96P should not be used on units less than 24" (610mm) deep. Consult Metro Engineering for alternate recommendations.
 *** Post lengths to be specified as cut to a round number, ie: 74P cut to 69"...This will result in an overall post height with adjustment of 69 5/8 to 69 7/8.
