Enclosed Linen Carts

- **Efficient Handling and Distribution:** Enclosed linen carts provide efficient contamination-free handling and distribution of linens.
- **Heavy-Duty:** Carts are constructed of high-strength aluminum for heavy-duty use. Silver anodized finish is clean and attractive.
- **Three Sizes:** Supply carts are available in small, medium and large sizes.
- **Large Capacity:** On a 24-hour exchange system, these carts will furnish linen as follows:

Small Cart	20 beds
Medium Cart	20-30 beds
Large Cart	30-40 beds
- **Adjustable Aluminum Shelves:** All models have two adjustable aluminum shelves so carts can be adapted to specific needs. On medium and large size carts, shelves are reinforced with angle braces running their full length. Additional shelves are available for all models.
- **Choice of Door or Flap:** All models feature an aluminum back and sides. To protect contents from airborne contaminants, small and medium carts are available with either lockable aluminum doors or a nylon-vinyl flap. Large carts come with nylon-vinyl flap only.
- **Casters:** Models T523A and T524A (small carts) have two 5" polyurethane tread swivel casters and two 5" polyurethane tread rigid casters. All other models feature four 8" extra heavy-duty non-marking resilient casters with swivel locks on two diagonal corners.
- **Cart Washable Models Available:** To make carts adaptable to automatic washing systems, contact your InterMetro representative for stainless steel casters.
- **Tubular Recessed Push Handles:** One on each end.

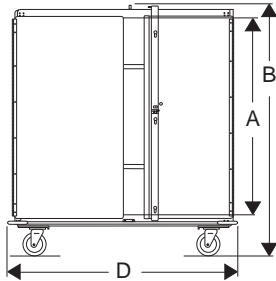

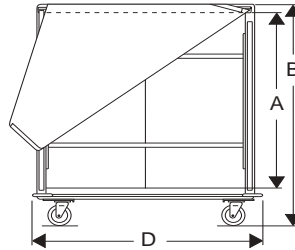

ENCLOSED LINEN CARTS

Specifications

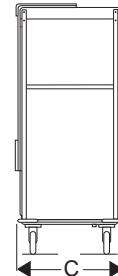

- **Material:** 14-gauge high-strength silver anodized aluminum.
- **Top and Bottom:** Top is 14-gauge, brake-formed into box shape; bottom is 10-gauge, with full-length reinforcing channels underneath.
- **Ends:** 14-gauge, brake-formed with smooth interior and recessed outside.
- **Casters:** Models T523A and T524A (small size) have two 5" polyurethane swivel casters (B5P) and two 5" polyurethane rigid casters (B5PR). Models T543A, T544A and T563A (medium and large sizes) have four 8" extra heavy-duty gray, non-marking resilient tread casters (BC8L) with swivel locks on two diagonal corners.
- **Shelves:** 14-gauge aluminum, curled edge front and back; adjustable on continuous vertical track. On medium and large carts, shelves are reinforced with angle braces running their full length.
- **Doors:** 8-gauge, with two-point latching mechanism with lock.
- **Flap:** Gray nylon-vinyl with Velcro closures on both sides.
- **Bumper:** Wraparound bumper with separate reinforced corners, standard on all models.
- **Push Handles:** Tubular full width, recessed each end.
