STARSYS™ SYSTEM MOBILE WORKCENTERS

Metro Starsys™ flexible lab furniture is a mobile-based, highly-adaptive system, that enhances lab productivity and space efficiency by empowering the end user with the ability to easily reconfigure and move units around the lab.

The Starsys Modular System creates flexible space. No matter what you need — open, closed, short, tall, mobile units, stationary elements, preconfigured workcenters — Starsys has the elements for you.

With Starsys, you choose from an array of modular units to fit the space and work specifications. It's that easy. And that flexible.

Benefits:

- Facilitates fast, efficient product or furniture installation.

- The ability to easily reconfigure lab furniture layout as needs change.

- The ability to easily reconfigure unit design.

- Flexibility to design a storage solution to exact needs.

- Corrosion-proof polymer components for a contamination-free product.

- Durable, easy-to-clean, polymer enclosures that won't chip, peel, dent, or rust — ever.

- Rigid anodized aluminum and metal substructure, combined with advanced polymers, provides a robust and stable work environment for even the most sensitive equipment.

- A high level of organization.

- Easy access to supplies.

- Greater storage density in a smaller footprint.

Mobile WorkCenter with Epoxy Top

Mobile WorkCenter with Stainless Steel Top

Mobile WorkCenter with Blank Bracket Option

Specifications

Starsys™ epoxy resin worksurfaces are generally 1" (25mm) thick. Unless otherwise specified, worksurfaces are monolithic and molded from a modified epoxy resin, with a uniform mixture throughout the top forming a thermosetting material. Back or side splashes are shipped separately and affixed on site to epoxy top. Worksurfaces have a smooth, non-glare finish.

Laminate top material is $1^1/_8$" (29mm) Chip Core with HPL. Laminate thickness is .04" (1.0mm). Phenolic backer thickness is .02" (0.5mm).

Refer to Starsys chemical resistance report for a complete description of Starsys material specifications. A copy of the report can be found at www.metro.com or by contacting your local Metro representative.

*Base unit working height is equal to Base interior height +9" [229mm] (based on 5" [127mm] casters)

Overhead exterior height is equal to Overhead interior height +2.5" [64mm]

Refer to page 3 for overhead cabinet options

Additional caster options are available through the Metro Starsys Configurator or by contacting your Metro representative.

Caster Options

Description	Cat. No.
3" (76mm) Stabilizer/Leveling Caster	B3N-AS
3" (76mm) Total Lock	B3P-TL
5" (127mm) Poly Total Lock Caster	B5PC-TL

3" Total-Lock Caster: Utilize 3" total-lock plate casters for limited mobile applications or when additional storage area is required.

B3P-TL

5" Total-Lock, All-Polymer Caster: Recommended for corrosive environments. All-polymer total-lock plate caster is an economical alternative to stainless casters.

B5PC-TL

Stabilizer/Leveling Caster: Recommended for applications where benchtop equipment demands unit stability and/or a level worksurface. Engage caster foot for stability, release for mobility.
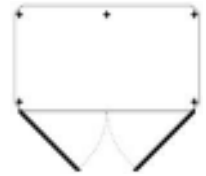

B3N-AS

Caster Options

5 (127mm) polyurethane plate casters come standard with preconfigured units (shown above) and make units easy to maneuver in tight spaces. Other caster options are listed on page 4.

Starsys Carts are built to exact customer specifications, therefore, they are non-cancelable, non-returnable.
