Job _____

Central Sterile Productivity Bench

This productivity bench provides a clean, obstruction-free surface for the preparation of surgical instrument trays and surgical packs and an optional accessory grid for tools and materials required.

Features Include:

- Adjustable legs, footrest or shelf to help reduce worker fatigue.
- Adjustable work surface height is from 31"-37" (787-940mm) on 1" (25mm) increments.
- Type 304 stainless steel or plastic laminate work surface.
- Rounded corners to reduce injury and torn packs.
- Posts are HD 1 1/2" (38mm) diameter 16 gauge powder coated steel.
- Wide range of accessories to customize by need.

Basic models consist of:
(shown above with stainless steel top)

- Two short front posts and two tall rear posts with accessory slots.
- Stainless steel or plastic laminate work surface.
- Support frame(s): bottom three-sided* and top tie-bar.
- Choice of solid bottom shelf or foot rest frame.

*Required with stainless steel top only.
